

AMENDMENT UNDER 37 C.F.R. § 1.111  
U.S. Serial No. 09/133,766

(b) detecting release of mast cell and/or basophil cell mediators in response to said exposing; and

(c) designating the pre-selected substance as potentially allergenic based on detecting release of mast cell and/or basophil cell mediators.

**H<sup>2</sup>** 47. (Amended) A method according to claim 44, wherein said cell-line is a secretor variant.

**Please add the following new claim:**

**H<sup>3</sup>** 54. (New Claim) A method according to Claim 44, wherein said cell line is an RBL-2H3 mast cell line which when exposed to a preselected substance results in at least 3-45% mediator release.
